Application	Vacuum Cleaner <input type="checkbox"/>	Power tools <input type="checkbox"/>	Automotive <input type="checkbox"/>	Other <input type="checkbox"/> Please specify:	
Motor type	AC <input type="checkbox"/>		DC <input type="checkbox"/>	Others <input type="checkbox"/>	
Motor Parameters	Rated working voltage (V)		Max. working voltage (V)		
	Rated current (A)		Max. Working current (A)		
	Rated working speed (RPM)		Max. working speed (RPM)		
	Rated Input power (Watt)		Max. Input power (watt)		
	Life time (Hour)		Wearing depth $\Delta \Phi$ (mm)		
	Commutate spark level		Max. working temperature on commutator surface (°C)		
	Carbon brush size (mm)		Last turning depth on OD (mm)		
	Undercutting after commutator fitted on armature?		Others		
	Motor test method or working system				
	Shaft style, dimension and tolerance (mm)				
Shaft size and tolerance		Shaft size and tolerance	Shaft size and tolerance	Shaft size and tolerance
